

STAINED GLASS RUBRIC

	POOR	FAIR	GOOD	EXCELLENT	PERCENTAGE
Color	Little to no consideration for what colors were used.	Color was well used but should have been considered further	Consideration of color theory is apparent but not used through out piece	Great use of color theory, a color scheme was considered and used correctly	20%
Design	Little to no consideration to design	Design was planned out but should have had more details	Design could have been developed further, needed to consider the Principles of Design more and the Rule of Thirds	Design is original and very creative, the use of the Principles of Design is apparent, and the use of the Rule of Thirds is apparent	20%
Completion	Project was far from being complete Less than 70% Complete	Project still had a good bit to complete 70-80% Complete	Project was not quite completed 80-90% Complete	Project was completed to the specifications. 100% Complete	10%
Creativity	Very little or no creativity was shown	Some creativity was shown	Was very creative but student could have pushed it a little more	Over all design was very creative and went above and beyond my expectations	20%
Craftmanship	Lacking good craftsmanship . All areas that are cut out are messy, many areas never cut out, 7 or more pieces of stained glass paper are overlapping.	Could have made lines straighter or paid closer attention to detail. Lots of the cut out areas are messy, 3-7 pieces of stained glass paper are overlapping.	Good attention was paid to details, but could have pushed it a little more. Some cut out areas are neat clean, others were messy, 1-3 pieces of stained glass paper are overlapping.	Close attention was paid to details. Cut out areas are neat and clean, no overlapping of stained glass paper.	30%
